

Addendum 1 for Tenant Design Manuals

Below is an addendum to the Tenant Design Manuals.

- 1) 2.4.3 Optional Signage in the Tenant Design Manual for Terminal A, B, C & E dated October 2006 AND
- 2) 3.2.3 in the Tenant Design Manual Terminal D, dated May 14, 2004

Replace the above sections with the update below.

Optional Signage

Special graphics and temporary displays may be placed within the SCZ or the storefront enclosure, but only with approval by the Airport. The Tenants must comply with the following criteria:

1. Limit each concession location to **one** supplemental sign.
2. Maximum overall height may not exceed 5 ft and maximum width may not exceed 2 ft.
3. All signs must be double sided.
4. The sign must be of a stable design otherwise it will be subject to removal.
5. Must be produced of durable materials with a professional quality appearance.
5. The sign must physically touch the lease space.
6. Any variance to the above would be via written request only and be subject to approval by the Concessions Department.

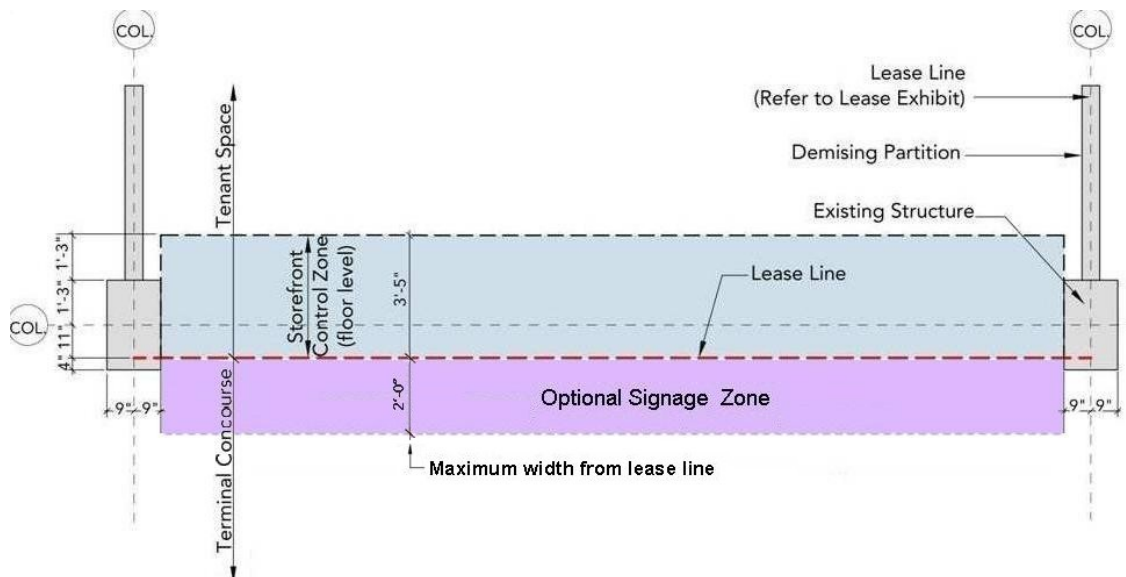

Figure 2.4 – Plan/Optional Signage Location

Approval for any special and temporary sign programs must be obtained each time the program or the signs themselves are revised. Initial approval for a specific program does not constitute blanket approval for subsequent temporary signs or sign programs.
