

Bright, Smart and Cool

Welcome to the New International Terminal D Parking Garage

DFW's newest parking garage, complete with modern features, is now open for travelers. The well-lit garage has 8,100 parking spaces on eight levels, bringing DFW's close-in Terminal Parking to approximately 26,000 spaces. A Smart Parking Technology System lets guests know how many available spaces are located on each floor, and subsequently, which floors are full. Air-conditioned skybridges with moving walkways make the walk from the garage to the terminal easy and comfortable. Terminal Parking is just \$16 a day.

Entering the Garage

Enter the new garage by following the signs to Terminal D from International Parkway. After exiting to Terminal D, you will see signs with three options: Parking, Arrivals and Departures. From the Parking lane, you can enter the garage directly. Should you choose to go to the Arrivals Level (Level 1) or the Departures Level (Level 3), you will still have two opportunities to enter the garage from those levels.

As you enter the garage, you will see a blue sign with each garage level listed and a digital number next to it. This is the Smart Parking Technology System at work for you. The number listed next to the garage level indicates how many available spaces are on that floor.

Each level is marked with a different Texas wildflower. Inside the elevator lobbies on each floor, there are colored tear sheets marked with a picture of the wildflower and the level number, so you can easily remember where you parked.

Two-hour parking is available on Levels 1 and 3, and is directly across the street from the Terminal, ideal for dropping off or picking up passengers. Accessible parking is available on Levels 1, 3 and 5.

Entering International Terminal D from the Parking Garage

International Terminal D can be entered from Levels 1, 3 or 5 of the garage.

Level 1 – Arrivals Level

There are three walkways from Level 1 to the Terminal, which lead to arrivals and bag claim. The walkways on the north and south sides of Level 1 have moving sidewalks inside the garage, and a crosswalk across the Arrivals Level Roadway. The center walkway on Level 1 leads directly to the DFW Sculpture Garden, which is outside the garage, just before the crosswalk. DFW encourages guests to use the Level 1 walkways so they can view the Sculpture Garden, which features four sculptures from the Nasher Sculpture Center in Dallas.

Level 3 – Departures Level

There is one covered bridge and two uncovered walkways from Level 3 to the Terminal, which lead to the ticket lobby and departures. The covered bridge overlooks the Arrivals Level Roadway.

Level 5

Two enclosed, air conditioned skybridges with moving walkways from the garage into the Terminal are located on Level 5. Once inside, you can take elevators, escalators or stairs to departures or arrivals.

No matter which parking garage level you choose, you can take the elevator to Levels 1, 3 or 5 to get to the skybridges and walkways.

Exiting the Garage

Garage exits are located on Levels 1 and 3. Simply follow the exit signs from whichever floor you are on to either of these levels.
