### **DFW AIRPORT FLIGHT OPERATIONS UPDATE**

September 21, 2001

On Thursday, September 20, DFW Airport operated at 79 percent of its normal flight operations. A total of 1,817 flights were recorded, compared to the Airport's average number of 2,300 daily flight operations.

On Thursday, September 13, DFW Airport resumed flight operations at only 13 percent. Friday, the Airport operated at more than 50 percent, with Saturday's numbers increasing to 60. Sunday's operations jumped to 74 percent, Monday's rose to 77.5, and Tuesday's numbers increased to 80 percent. Wednesday's operations dipped slightly to 77 percent of normal flight operations.

The Airport continues to urge travelers to check with their airlines for the latest flight information.

All DFW parking options remain open. Only the first rows of terminal garage parking, both upper and lower levels, are not available at this time. Handicapped parking is not available in terminal parking garages, but is available in discount and shuttle lots.

For those picking up or dropping off passengers, you may continue to do so at terminal curbsides as long as someone remains in the car at all times and the car is in designated loading and unloading areas. Any car left unattended at the terminal curbsides or parked illegally will be towed immediately.

(Note to Editors: This is the last daily update on Airport operations. We will continue to keep you informed, as in the past, of any changes or relevant news at DFW Airport. Please check [www.dfwairport.com](http://www.dfwairport.com) for additional information or call 972.574.NEWS.)
