DFW Airport promotes convenient customer-friendly parking service for American Airlines passengers

DALLAS/FORT WORTH AIRPORT, TEXAS (May 11, 2001)—American Airlines passengers at DFW International Airport have an enhanced parking option that offers an array of convenient services to simplify their travel experience. On Sunday, May 13, DFW Airport will begin operating the new Value AA Parking lot, currently known as West Reduced Rate Parking. The Value AA lot has 3,400 parking spaces available. American Airlines passengers who choose to park their vehicles at the Value AA Parking lot can purchase a plane ticket at the lot, receive their boarding passes and seat assignments as well as have their bags checked. Value AA Parking customers also receive direct shuttle service to and from Terminals A, B and C for only \$7 per day. New signs on International Parkway will direct travelers to the facility.

“We are committed to exceed our passenger’s customer service expectations. Our desire to offer these customer service parking options is our way of showing the traveling public how much we value their time and business at DFW Airport,” said Chief Executive Officer Jeff Fegan, DFW International Airport.

The Airport has also improved the landscaping to enhance the aesthetic appearance of the facility and showcase the new DFW Airport parking lot signature appearance. Some of the changes include white ranch-style fencing, the planting of several trees and grasses and adding curb ramps to the Infield section for passengers with rolling luggage.

DFW Airport provides more than 30,000 parking spaces for its customers. For up-to-the minute parking availability, users can click on “Parking” on the Airport’s web site at www.dfwairport.com and immediately learn which lots are open, without having to drive through the Airport.
