**CLARIFICATIONS 2**

Re: Solicitation No. 8005396

Please be advised of the following clarifications to the above referenced Solicitation.

Q1. Please confirm the number of hard copy proposals to be submitted (is it 1 original and 3 copies or 2 copies); How many USB drives need to be submitted?

A1. See Section 8.3 of Proposals and Instructions: "The Proposer must submit one original proposal and one USB drive."

Q2. If we only want to bid on the Analytical Testing portion of this RFP, can a company bid only on Exhibit C: Analytical Testing Pricing Schedule and not on the monitoring Exhibits D,E,F. to be considered for this contract? Only E says Optional.

A2. DFW Airport is not interested in acquiring a contract for only the Analytical Testing services identified in Exhibit C. DFW Airport would request the bid includes costs for all of the Optional Services identified in Exhibits D, E, and F.

Q3. Would DFW Airport accept Organophosphorous pesticides by 8270 vs. 8141?

A3. DFW Airport is only interested in obtaining a price for method 8141.

Q4. I do not see a request on the pricing tables for Rush options and surcharges. Will you need our surcharges for these?

A4. See Addendum 4.

Q5. Can you please confirm that NO BOND is required for this proposal. We could not find in in the Special Provisions.

A5. No bond is required.

Q6. Due to the very large size of the Quality Manual, can it just be provided electronically and not printed off on a hard copy?

A6. DFW Airport will permit Quality Manuals to be submitted electronically.

Q7. Exhibit C - Line Item 32: description of test is "Metals" – What Metals list is required? RCRA 8 ?

A7. Note, specific test may be required to meet specified detection limits and EAD may only request specific metals be included on the laboratory report. However, the group of metals that should be considered in Line Item 32 are: Aluminum, Antimony, Arsenic, Barium, Beryllium, Boron, Cadmium, Calcium, Cerium, Chromium, Cobalt, Copper, Iron, Lead, Lithium, Magnesium, Manganese, Mercury, Molybdenum, Nickel, Phosphorus, Potassium, Selenium, Silica, Silver, Thallium, Tin, Titanium Thorium, Uranium, Vanadium, Zinc

Q8. Exhibit C – Line Item 107: "SARS-Covid-2 (Covid 19) surface sampling" – Can you elaborate. Is this the cost for laboratory sampling only or sampling and testing together.

A8. The cost is for only analytical testing.

Q9. Exhibit C – Line Item 108: "SARS-Covid-2 (Covid 19) waste water sampling" – Can you elaborate. Is this the cost for laboratory sampling only or sampling and testing together.

A9. The cost is for only analytical testing.

**NOTE:** A copy of this questions and clarifications shall be acknowledged by appropriate signature and attached to the submitted proposal.
