DFW Airport Board Authorization for Lock Cores

RULES

1. Keys issued by the DFW International Airport Board (Board) or its agents remain the property of the Board and the authority to reproduce and issue keys and lock cores lies solely with the Board.
2. Keys are issued to individuals and are non-transferable and unauthorized reproduction is not permitted.
3. Keys to a SIDA or AOA gate are electronic and will not be issued to anyone not in possession of a valid, unexpired SIDA badge. Electronic keys automatically expire on the same date that the key holder's SIDA badge expires. All business involving SIDA/AOA keys must be transacted in the Access Control Office.
4. Key holders, or key holder's employer, shall immediately notify the key issuing entity when a key is lost, stolen, is not returned when a key holder terminates employment, or when a key holder transfers to a position that no longer requires the key.
 - a. For keys issued by the Access Control Office, send email notification to aco@dfwairport.com.
 - b. For keys issued by Energy Transportation and Asset Management or Board Contractor, send email notification to etamlocksmith@dfwairport.com.
5. Each key is coded with a unique serial number for tracking and accountability purposes. Key holders shall not mark a key with a lock core number in any way.
6. Lock cores are allocated to specific Board Departments and lock core changes require approval of the department senior vice president, vice president or assistant vice president and an authorized Board badge sponsor of the department to which the lock core series is assigned. If the senior vice president, vice president, or assistant vice president is also an authorized badge sponsor, he/she may approve and sign the Authorization for Lock Cores form as both the Board Department Sponsor of the Lock Core Applicant and as the DFW Board Badge Sponsor.
7. Lock cores will not be installed or changed without a completed *Authorization for Lock Cores* form.
8. Fees to replace lost or stolen keys shall be charged in accordance with the Board's Schedule of Charges, as may be amended from time to time.
9. Contracts will not be closed until all keys are returned to the key issuing entity.
10. Keys must be issued within 30 days of the date the form is signed by the authorized Board badge sponsor.
11. Failure to comply with these rules may result in the loss of access privileges. For a review of the entire policy, please see the Board's Key and Lock Core Control policy.
12. Your signature on the *Authorization for Keys* or the *Authorization for Lock Cores* forms indicates that you agree to abide by the Rules listed above in numbers 1 through 11.
