## INTRODUCTION

### A. GENERAL

This Schedule of Charges has been approved by the Dallas/Fort Worth International Airport Board (“DFW” or the “Board”) and is distributed to all tenants and users of the airport annually. The rates, fees, and charges specified herein are effective on October 1, 2018.

Please direct any questions or comments concerning this schedule to the Assistant Vice-President of Financial Planning at 972-973-5445.

### B. METHODS OF CALCULATION

The Airline Lease and Use Agreement imposes on each Signatory Airline, the obligation to pay rentals, fees, and charges for the use and occupancy of the airport. These payments, together with rentals, fees, and charges paid by other airport users, will produce total annual gross revenues sufficient to pay the operation and maintenance expenses of the airport, plus 1.25 times the payment of principal and interest on the joint revenue bonds, plus the payment of any other obligations required to be paid from the revenues of the airport. The Airline Lease and Use Agreement contains formulas for the calculation of many airport rates, fees, and charges. Copies of the Airline Lease and Use Agreement may be obtained from the Aviation Real Estate Department.

### C. DEFINITIONS

Aircraft – shall mean and include fixed-wing, helicopter, and other rotary-wing airships.

Airline Lease and Use Agreement – shall mean that agreement between the DFW Airport Board (“Board”) and an airline in which the airline agrees to pay rentals, fees, and charges for its use of and operation (or right to operate) at the Dallas/Fort Worth International Airport (“Airport”), and the use and lease of the Terminal and facilities, and the services appertaining thereto, in an amount which, together with rentals, fees, and charges paid by other airlines and other entities using the Airport and Terminal facilities, will be sufficient to produce total gross revenues in each fiscal year as required to satisfy the Board’s obligations (“Agreement”).

Alarm System – shall mean a device or system that emits, transmits, or relays a signal intended to summon, or that would reasonably be expected to summon, police services of the Airport. An Alarm System does not include:

1. An alarm designed to alert only the inhabitants of a premise;
2. An alarm installed on a vehicle unless the vehicle is permanently located at a site; and
3. An automated access control system, which is not designed as an intruder alarm, but only designed to allow orderly access to designated areas.

Alarm Notification – shall mean a notification intended to summon the police, which is designed either to be initiated purposely by a person or by an alarm system that responds to a stimulus characteristic of unauthorized intrusion.

Alarm Site – shall mean a single premise or location served by an alarm system or systems that are under the control of one person or company.

Automated Access Control System – shall mean an automated system for access to Air Operations Areas (AOA), Security Identification Display Areas (SIDA), and Sterile Areas of the airport in compliance with 49 CFR 1500 et al, and other facilities and structures, which have been designated by the DFW Airport Board.

Equipment Staging Area – Any portion of the ramp used for the short-term staging of equipment and cargo. The Equipment Staging Area may be used up to four hours before and after aircraft arrival.

Ground Servicing Equipment (GSE) – Any equipment that is owned, leased, licensed to or operated by a ground handler. GSE includes vehicles used for loading and unloading aircraft, fueling, catering, cleaning, high lift vehicles, water trucks, dollies, tow bars, mobile stairs, tail lifts, tugs, ground power units, repair service vehicles and any other vehicle or rolling stock not specifically mentioned.

Ground Service Equipment (GSE) Storage Area – An area (not on the ramp) dedicated to the safe storage of all GSE when it is not in use.

A rate of \$25 per hour per position will be charged for use of an ATO CUTE location for the operation of a flight by an airline leasing other ATO facilities at Terminals B/D/E on a preferential use basis.

## D. TERMINAL GATE/HARDSTAND OPERATIONS

1. Aircraft parks on a gate and remains on gate, carrier is charged for a full turn.
2. Aircraft parks on a gate/hardstand and is pushed to a hardstand/gate for departure; carrier is charged 75% of gate turn fee.
3. Aircraft parks at a hardstand position for the arriving and departing flight; carrier is charged 50% of gate turn fee.
4. Aircraft parks on a gate or hardstand and remain-over-night (RON) will be charged a hardstand parking fee applicable to the aircraft size.
5. Aircraft parks on a gate/hardstand in excess of allotted ground time may be subject to additional excess gate use or hardstand charges as applicable.

Terminal common use gates and hardstand aircraft parking positions are managed by DFW's operations management staff. The use of all Terminal common use gates and hardstand aircraft parking positions must be scheduled and coordinated through DFW Operations management. DFW Operations management staff will exercise reasonable effort to accommodate Airline requests for utilization of common use gates and hardstand aircraft parking positions, however, in the event of a dispute concerning gate prioritization and usage, DFW reserves the right in its sole discretion to resolve the dispute as to what is deemed in the best interest of airport operations, which may include, but not be limited to, requiring Airline to relocate its aircraft from a Terminal common use gate to a hardstand aircraft parking position.

## E. TECH STOPS

Tech Stops will be charged 50% of the Charter per turn rate. A Tech Stop is defined as an aircraft arriving on a Common Use Gates for purposes of fueling in route during a weather or aircraft maintenance divert from a primary airport ("Tech Stop"). Tech Stop fee also applies to an operational aircraft (both live and ferry), utilizing a hardstand parking spot to deplane and/or crew.

A Tech Stop does not allow passenger on/off loading at a Terminal. If passengers enplane or deplane at a terminal, the airline will be subject to the Charter Common Use Gate charges.

## F. COMMON USE GATE TURN TIMES

Passenger Airlines using a designated Common Use Gate shall be allotted a specified gate turn time based on the aircraft type. A gate turn time is defined as the block of time when the aircraft chocks are positioned upon-arrival and until the start of the push back of an aircraft vacating the designated common gate location.

### Maximum Aircraft Gate Turn Time

<u>Aircraft Type</u>	<u>Gate Turn Time</u>
RJ/Props	75 minutes
Single Aisle	90 minutes

2. If a flight exceeds its allotted ground time and impacts another carrier, applicable excess gate use fees will be applied.
  - a. If the Terminal D Ramp Tower is advised in a timely manner and the arriving carrier can be accommodated on another gate, no excess gate use fee will be applied.

**G. TERMINAL AIRCRAFT PARKING FEE**

Signatory Airlines leasing terminal gate space and assigned the use of a Terminal Aircraft Hardstand position by Terminal Management may park an aircraft at the assigned Terminal Aircraft Hardstand position for a period of time not to exceed eight (8) hours. Aircraft will be subject to the applicable rate listed below for parking of passenger aircraft at DFW International gates and designated ramp areas in excess of eight (8) hours. **H. NON-PERMITTEE PAYMENT REQUIREMENT**

Any airline (other than a scheduled airline and/or signatory airline) operating a charter flight on a Common Use Gate is required to pay all operating fees five (5) business days in advance of its charter operation. If a request to operate a charter flight is received within five (5) business days of their charter operation, the airline is required to pay all operating fees within 24 hours of the request or prior to the charter flight's arrival (whichever occurs first). If payment is not received by the above deadline, the use of the gate is subject to cancellation.

Additional fees may apply if airline requires DFW ticket stock or other supplies for its operation. For additional information about these fees, please contact Terminal D Management.

Except as specified below for Transportation Network Companies (TNCs), all access fees and any public parking rates are collected from the vehicles' NTTA account upon exiting the Public Parking Revenue Area.

(4) TNCs must pay \$3 for each digitally prearranged ride to, from, or within the Public Parking Revenue Area. Their portion of the access fees will be paid directly to the Airport on a monthly basis, as described in their permit. Because TNC drivers will not be identified within the system as TNC drivers, they shall accrue public parking rates immediately upon entering the Public Parking Revenue Area, regardless of whether their digital applications are active or otherwise capable of receiving a request for a digitally prearranged ride while they are within the Public Parking Revenue Area. The payment of public parking rates by a TNC driver during the first 30 minutes within the Public Parking Revenue Area will be deemed compensation to the Airport for the remaining portion of the access fee (\$2). Any additional revenue collected will be considered public parking revenue.

(5) TNCs who choose not to cooperate in implementing and continuously providing data for the real-time TNC vehicle tracking and reporting application shall pay the per-trip administrative service fee.

All tenants receiving electric and/or gas utilities service from the Airport Board to the respective leased areas shall be required to make a security deposit in advance equal to 1/5<sup>th</sup> of the tenant's estimated annual billings. In those instances wherein a tenant is unable to provide history for establishing usage to determine the amount of the security deposit as stated, the Airport Board may establish the initial amount of the deposit based on the usage of a like tenant class.

In the event the tenant defaults in the payment of electric and/or gas utility services, the Airport Board may use, apply or retain the whole or any part of the security deposit to the extent required for payment of the delinquent amount. If the tenant terminates the landlord/tenant relationship and is current in its payments to the Airport Board, the security Deposit shall be returned to the tenant.
